And a few by me!

Using this file:

Thanks for selecting this file to download and use. There are two game boards for the "th" sound. Just print the boards and give one to each student or print some on cardstock and laminate for a **GREEN solution** and multiple use. Be sure to use a dry erase marker that cleans off of your laminate easily.

These boards are great for use in therapy sessions, as homework, carryover into the classroom and for use with older peer tutors who are able to identify correct sound production.

Because of copyright laws (which I am only beginning to understand!!), please refer friends and colleagues to this site to download their own free copy.

ROLL AND SAY "TH" (All positions in words)

- 1) Roll the die
- 2) Find a word in the column that has the same number as the die
- 3) Cross out the word if it is said correctly!! Make a mark in the square each time the word is said. Some squares might have several marks by the end of the game depending on how you play.
- 4) Say one of the words in the column that matches the number rolled by:
 - Repeating the word after someone,
 - Saying the word by yourself, **OR**
 - Saying the word by yourself in a sentence

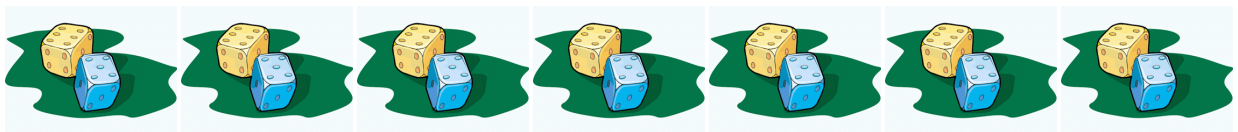

Other ways to play:

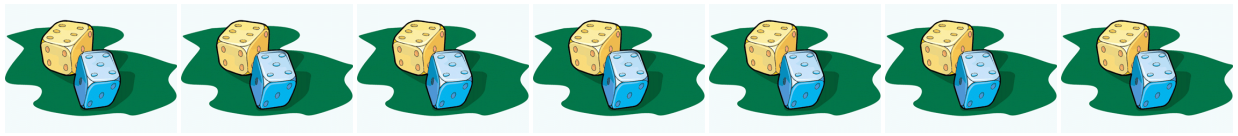

****If two or more people are playing, see who can cross off every word in a column first!

****See who can be the first one to cross out EVERY word on the whole card.

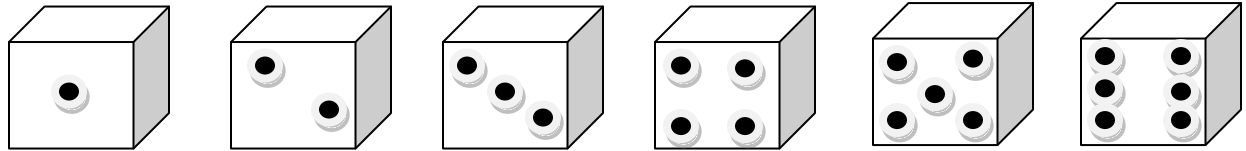

****See who gets the most duplicate words!!

****Think up your own game!
